

Please do not allow your LPFM stations to interfere with K-Love.  
This station provides positive music and influence. It provides me with inspiration and helps me get through my day. Besides the music, the station provides free counseling and someone who will listen for those people who are in trouble. I am a doctor, and I have referred patients who were down on their luck to this station. If this station goes, our community will lose a positive resource of influence. Please do NOT let this happen.
